

Hungary – Overview

Portal

- www.kozadat.hu
- Some sector specific portals

Ranking

- Open Data Barometer Rank: 50
- Open Data Index Rank: N/A

Transposition PSI Directive

✓ Yes

Revised PSI Directive

Open Data Policy

- ✓ Daily frequency of data collection
- ✓ Less than 3 events held annually
- ✗ No Open Data policy
- ✗ No national 5 year strategy
- ✗ No priority domains identified

39%

Licensing Norms

- ✓ Free of charge
- ✗ Not open licensed
- ✗ No policy providing a standard licence

43%

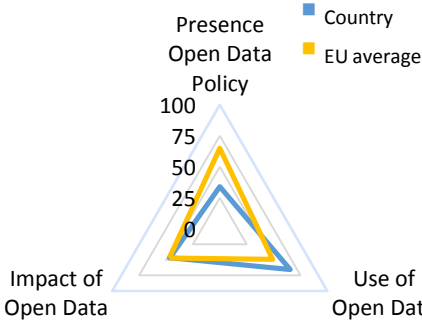

National coordination

- ✓ National guidelines on publication
- ✗ No regional data initiatives
- ✗ N/A, no regional portals integrated

15%

Score Hungary

Country (blue line), EU average (yellow line)

Usability of portal

- ✓ API accessible
- ✓ Contribute to portal
- ✓ Possible to search on file format, not on data domain
- ✗ No possibility to give feedback
- ✗ Download data sets

Use & Reusability of Open Data

- 16,753 (0.17% of inhabitants) unique visitors on average per month
- 3% of the visitors are foreign
- 95% of traffic generated by humans
- Typical profile of visitors is a bit of everything
- Unknown most available file format
- 17% of the data sets are machine readable

1799 data sets available

75%

Top data set & domains

- Most downloaded data set: General information on public bodies

Top 5 most consulted domains:

1. General information on Public Bodies
2. Job offerings
3. Local legislation
4. Budget
5. Information on municipalities

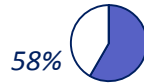

Impact

Political:

- No activities launched since 2015 to monitor impact
- Medium impact efficiency
- High impact transparency

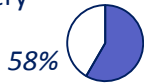

Social:

- Unknown impact environmental sustainability
- Unknown impact inclusion of marginalized groups

Economic:

- One study market value
- Unknown studies better service delivery
- No other studies
- Marginal (Zero) Cost Model

Barriers

Further publication

For further publication only one barrier exists.

- *Other barrier:* Impact of the current system is never reviewed. Hungary has a working Open Data publication system since 2005. After 10 years it is time to reassess its efficiency.

Further use

For further use a financial barrier is present.

- *Financial barrier:* Many data holders do not receive state funding, they must finance themselves from their data “selling”, which keeps re-use fees at a high level.

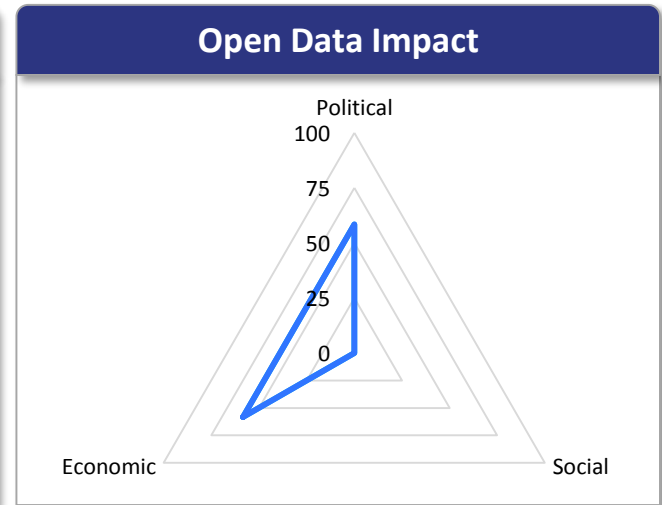

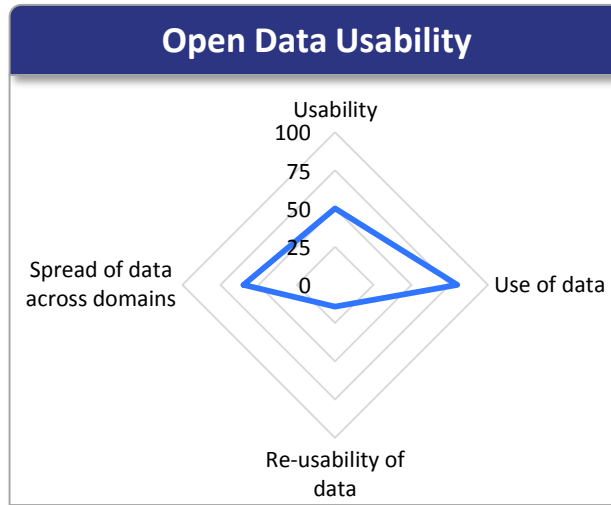

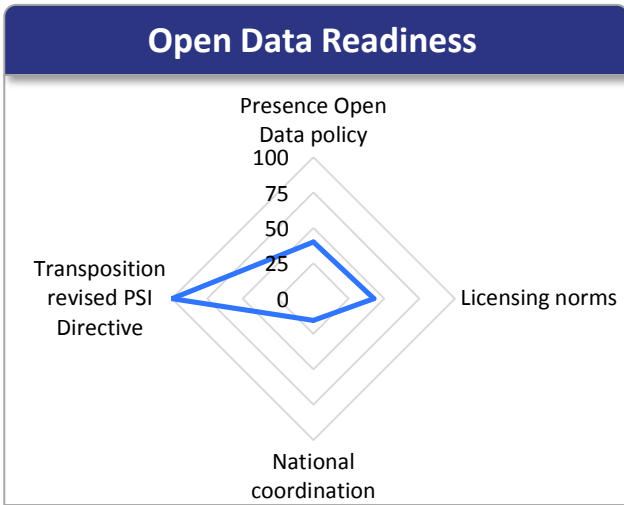

Best practices

- National legislation database: Free-to-access web based legislation database, based on the Official Journal’s core data. It helps citizens, enterprises and even public bodies in their everyday work/life.
- Centre for Budapest Transport: publishes public transport timetable database in GTFS format (free and public specialized format for timetables database).

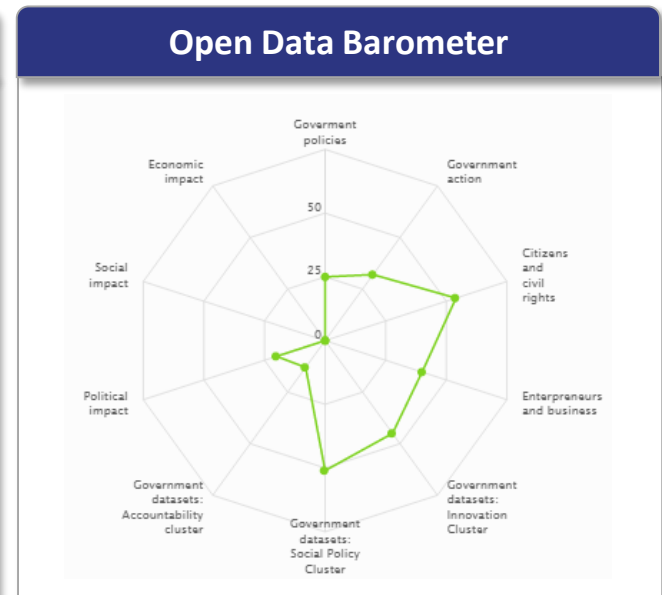

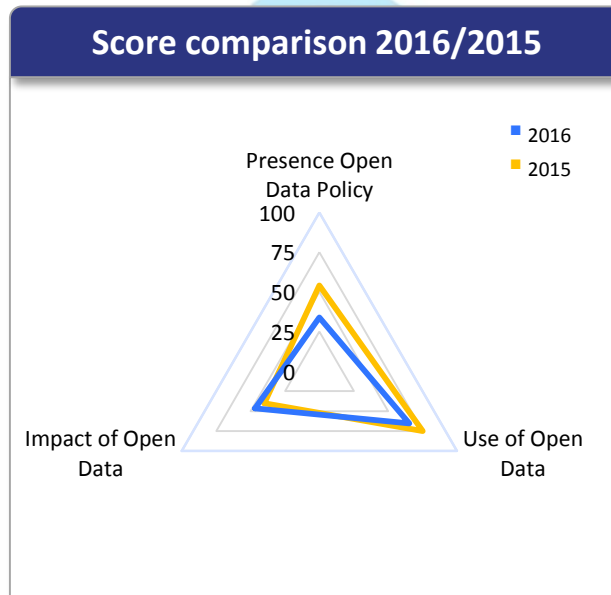

Progress on barriers

- Further publication: PSI directive amendment was implemented, a white book on PSI re-use and national data policy has been prepared (currently under finalisation), further measures planned.
- Further use: The problem was assessed during the preparation of the white book/national data policy.

- ### Major changes 2016
- The political impact of Open Data has increased quite significantly due to an improved impact transparency, whereas the social and economic impact stayed the same.
 - The presence of an Open Data policy has decreased due to a drop in national coordination as regional data initiatives no longer exist nor are regional portals integrated anymore.
 - The use of Open Data has only slightly increased because more information is known about the visitors of the portal.

Maturity 2016

Classification maturity assessment 2015: Follower

Next steps

- Develop a new national portal
- Focus on the re-use of Open Data

Upcoming events

- An international conference is planned by NGOs in January 2017 about PSI issues.
- A hackathon will be organised.
