- Most downloaded data set: Not applicable

Top 5 most consulted domains: Not applicable

Impact

Political:

- Not applicable

Social:

- Not applicable

Economic:

- Not applicable

Barriers

Further publication

For further publication political and legal barriers exist.

- *Political barrier:* The responsibility for an Open Data programme is not defined from a political perspective.
- *Legal barrier:* There is no legal basis defined.

Further use

For further use little awareness and legal barriers are present.

- *Little awareness:* There is little awareness regarding the existence of Open Data.
- *Legal barrier:* The lack of a legal framework is holding the re-use of Open Data back.

Best practices

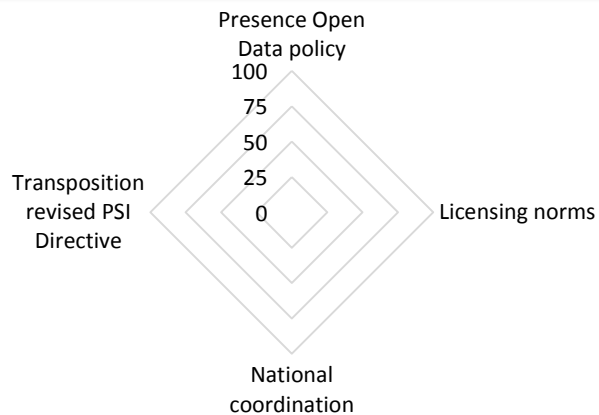

- Geographic data: several different subjects such as environment, sport, leisure, economics, maps are covered. All of them in relation to geographical information. Geographical data has many applications in a wide area of domains (construction, leisure time, real estate, ...). The relevant formats and interfaces are highly standardised.
- No re-use best practice shared by Liechtenstein.

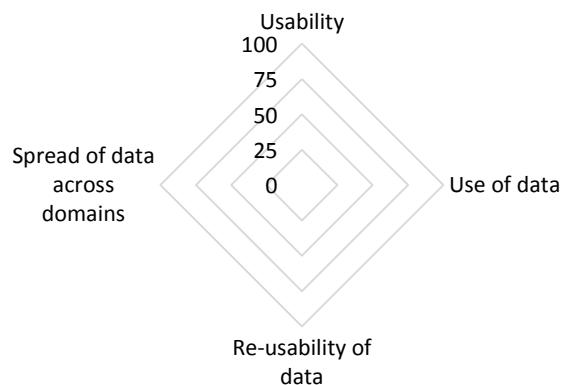

Progress on barriers

- No actions are taken to address the barriers for further publication and further use.
