## Barriers

### Further publication

For further publication legal and other barriers exist.

- *Legal barrier:* Lack of timely implementation of the revised PSI Directive.
- *Other barrier:* Lack of awareness among public sector Bodies.

### Further use

For further use little awareness and technical barriers are present.

- *Little awareness:* No sufficient awareness among public sector still exists.
- *Technical barrier:* Data is often available in PDF only or it is difficult to obtain data, hence in non-machine readable formats. This makes the data less useful for re-users.

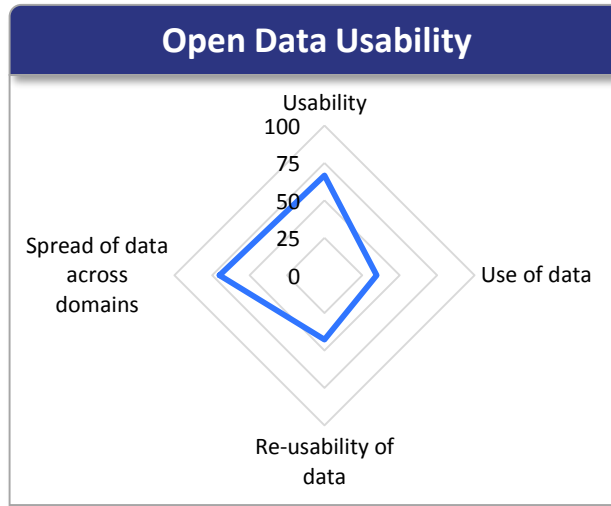

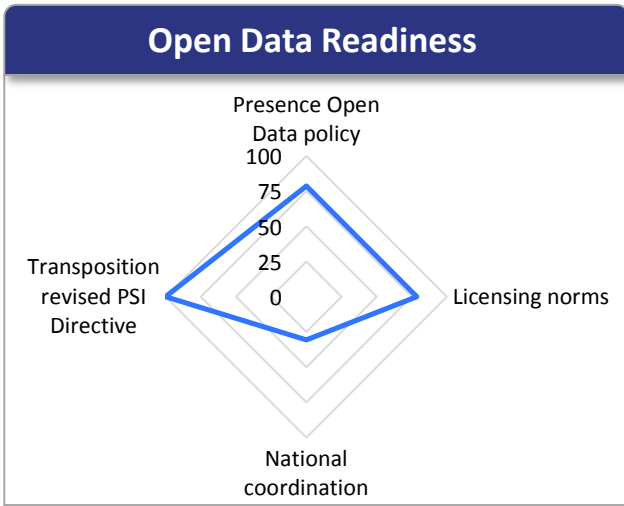

## Best practices

- Open Gdansk: Data collected by the city of Gdansk is collected for citizens and used by new technologies to support transparency of governance.
- Apps4Warsaw: Apps4Warsaw is a competition for best city apps built based on Open Data from the city of Warsaw. Aim is to promote Open Data and engage people in creating civic technology tools and to set paths for Warsaw opening up its data.

## Progress on barriers

- Two barriers existing for further publication, are addressed. To overcome the legal barrier new legislation was adopted. An Open Data Programme is drafted that addresses the other barrier.
- The technical barrier that exist for further use, is addressed in the Open Data Programme by presenting good practices in publishing data.

- ### Major changes 2016
- Due the identification of priority domains, the score for Presence Open Data Policy has increased a little.
  - The indicator Use of Open Data has increased, because in 2016 much more information about the visitors of the portal is known.
  - Impact of Open Data indicator has stayed the same compared to last year.
