- ✓ More than 5 events held annually

83%

Licensing Norms

- ✓ Free of charge
- ✓ Open licensed
- ✓ Policy encourages to use ROU-OGL licence, based on CC 3.0

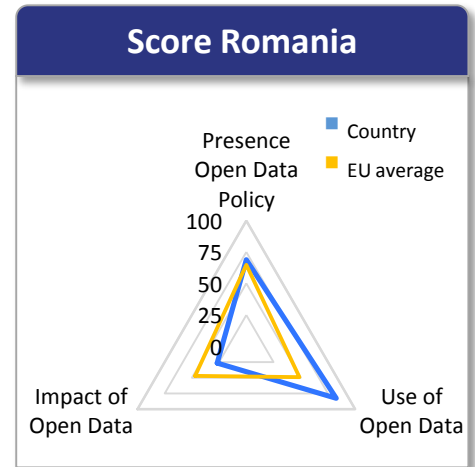

100%

National coordination

- ✓ National guidelines on publication
- ✓ One regional data initiative
- ✗ No regional portals integrated

15%

Usability of portal

- ✓ API accessible
- ✓ Possibility to give feedback
- ✓ Search data sets
- ✓ Download data sets
- ✗ Contribute to portal

Use & Reusability of Open Data

- 97,000 (0.5% of inhabitants) unique visitors on average per month
- 10% of the visitors are foreign
- 84% of traffic is generated by humans
- Typical profile of visitors is a bit of everything
- Most data sets are available in XLS format
- 99% of the data sets machine readable

446 data sets available

76%

Top data set & domains

- Most downloaded data set: Citizens debts to budget
- Priority domains: companies, education, finance and contracts, government accountability and democracy, statistics and transport and infrastructure

Top 5 most consulted domains:

1. Finance and contracts
2. Companies
3. Education
4. Gov. accountability and democracy
5. Statistics

Impact

Political:

- No activities launched since 2015 to monitor impact
- Low impact efficiency
- Medium impact transparency

Social:

- Medium impact environmental sustainability
- Medium impact inclusion of marginalized groups

Economic:

- No studies market value
- No studies better service delivery
- No other studies
- Marginal (Zero) Cost Model

Barriers

Further publication

For further publication political, legal and financial barriers exist.

- *Political barrier:* Open Data is not a priority at political level.
- *Legal barrier:* There are no laws regarding the protection of personal data.
- *Financial barrier:* Loss of revenue for public bodies under budgetary hardship.

Further use

For further use no barriers are present.

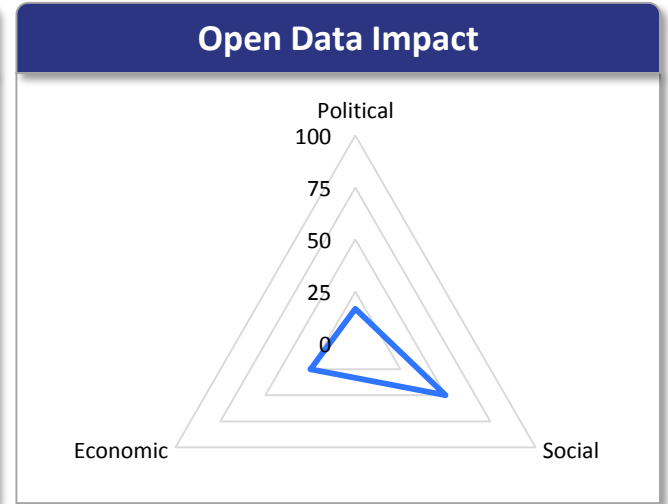

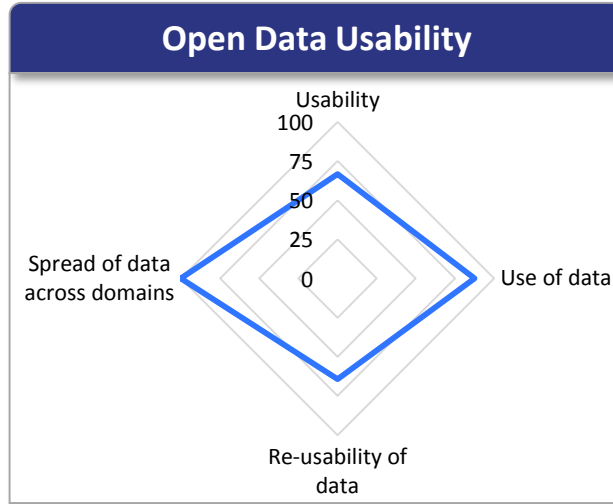

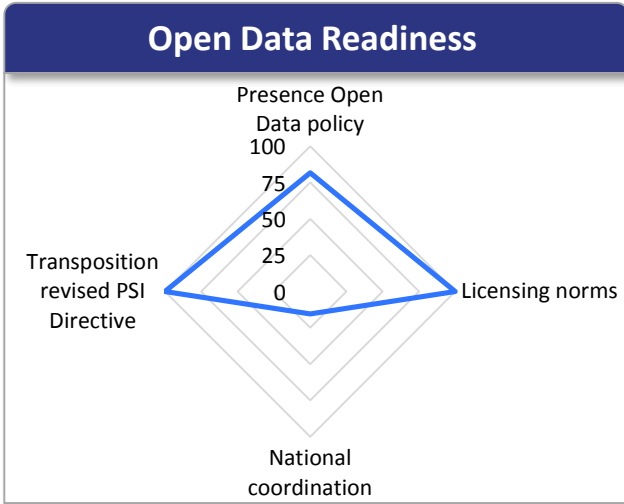

Best practices

- **Public procurement data published:** Public procurement data is published in the Open Contracting Data Standard format. As such it can be analysed using internationally available programs.
- **Train time-tables:** All railway stations and train time tables owned by the state and private operators are published as Open Data. This application presents the time tables, encouraging use of train transportation.

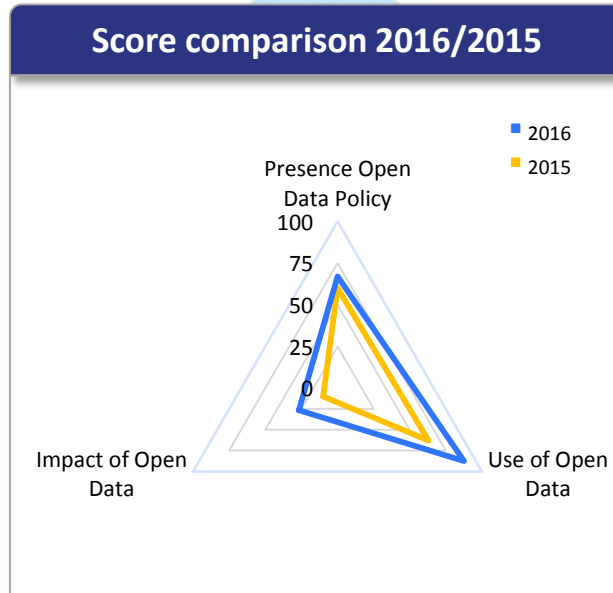

Progress on barriers

- Two barriers existing for further publication, are addressed. To overcome the political barrier a government memorandums are done. The legal barrier is overcome by doing law improvements.
- The barriers that exist for further use, are not addressed.

- ### Major changes 2016
- Due to the transposition of the revised PSI Directive, the score for Presence Open Data Policy has increased.
 - The indicator Use of Open Data increased most of the three indicators, due to the high number of unique visitors of the national portal.
 - The score for Impact of Open Data increased because both the political as the social impact changed from low to medium.

- ### Open Data Barometer
- Romania was not included.
