## State-of-Play on Open Data - 2018

### BARRIERS

#### Publication

-  Governance
-  Legal
-  Organisational
-  Technical
-  Financial
-  Other

- *Lack of employees of public administration specialising in Open Data, and frequent shifts in employees responsible for the Open Data topic in public bodies.*
- *Change or transition to the linked data requires funding within IT development projects.*

#### Re-use

-  Awareness
-  Availability
-  Legal
-  Technical
-  Other

*./.*

### BEST PRACTICES

#### Publication: Ministry of Agriculture and Rural Development Datasets

*Provides big amount of new and important Open Data and datasets.*

#### Re-use: Open Spending

*Municipality is publishing Open Data in a user friendly way. The impact of this re-use example is transparency and accountability of municipality budgets.*
