MATURITY LEVEL 2018

CLUSTER: FOLLOWER

2018: 51.6% Overall Maturity, 65% EU28 Average, 22nd
Re-use: National Land Survey

National Land Survey work on making maps and geographic information freely available to anyone who wants to use this, and also so they may be used and published freely without charges and restrictions and available in machine-readable formats.

**BARRIERS**

- Need for common standards and machine-readable standards. Activities are conducted by the National Archives, for example on national implementation of DCAT-AP metadata format.

**BEST PRACTICES**

**Publication: General process for making datasets available**

The Environmental Protection Agency has large amounts of data about the environment and works with Open Data to increase transparency and accessibility of data on the environment in order to support increased participation and awareness of environmental issues in the community.

**Re-use**
