

## The European Data Portal

The European Data Portal (EDP) is an initiative by the Publications Office of the European Union and by the European Commission that aims to increase the impact of open data by making it easy to find and re-use by everyone.

We harvest the metadata of Public Sector Information (PSI) – data held by the public sector – available on data portals across European countries and EU institutions. The EDP enables users to discover the data by making its metadata searchable in all EU supported languages.

In addition to that, we also develop research, offer guidance to data providers and re-users, e-learning modules and news, and engage the community on events and on social media to inform the public about the availability of and the opportunities arising from using open data.

# EUROPEAN DATA PORTAL

Opening up Europe's public data

## Share your story

Are you an entrepreneur? A non-governmental organisation? A civil servant responsible for publishing data? A local authority? Share your story about how you use open data with us! We collect and publish use cases from across Europe about the benefits and efficiency gains that result from the use of open data.

## Visit and contact the European Data Portal

Contact us via email at [info@europeandataportal.eu](mailto:info@europeandataportal.eu) or on Twitter at [@EU\\_DataPortal](https://twitter.com/EU_DataPortal). You can also find us on Facebook and LinkedIn by searching for the European Data Portal or visit us at [europeandataportal.eu](http://europeandataportal.eu).

## Beyond open data

Are you interested in the state of data sharing in the EU or do you want to know what the benefits of data sharing are? Visit our sister project the Support Centre for Data Sharing (SCDS) at [eudatasharing.eu](http://eudatasharing.eu) or on twitter at [@EU\\_DataSharing](https://twitter.com/EU_DataSharing). You can also contact SCDS via email at [info@eudatasharing.eu](mailto:info@eudatasharing.eu) or find us on Facebook and LinkedIn.
