

URL <https://www.baniitai.info>

Quick facts

-  Developer: Cristian Lumezeanu
-  Sector: Government & Public Sector
-  Product / service: Website
-  Type of data: Public procurement data
-  Origin: Romania

Benefits

-  Provides easy access to procurement data to boosts transparency and empower citizens and companies in Romania.
-  Increases accountability of budget spending.

How Open Data is used

-  BaniiTai uses Open Data from the Romanian Electronic Public Procurement System (SEAP) over a time period of currently eight years, encompassing over 8 million rows of raw data in 30 files.
-  Users can search for bidders, contracting authorities and also directly look into contract values.

Name of bidder	CUI	Number of Contracts	Value Contracts (EURO)	Number of Direct Purchases	Purchase Value Direct (EURO)
