## Quick facts

 Company:	Desidedatum
 Sector:	Government & Public Sector
 Product / service:	Website
 Type of data:	Government data
 Origin:	Spain

## Description

Desidedatum is a consulting company that gives public administrations and firms the necessary tools and knowledge for processes optimisation and cost and time savings. They do this through customised services according to the needs and the sector of their customers. They have provided their services to several municipalities and public bodies in Spain, such as the Region of Murcia, the municipality of Bilbao, and the government of the Canary Islands.

## Benefits

DesideDatum provides clients with valuable insights from open data. These data insights can improve the decision-making process in the public sector.
